Subject: Bayou Corne Report
Date: 08/27/2012 11:22 AM

We continue to rework the draft of the preliminary report and processing data for the Google Earth display. At the moment we are experiencing a power outage at the Regional Lab (our office).

There may be a delay in finishing the processing and getting the Google Earth link. As long as the laptop batteries hold we should still be able to complete a redraft of the report. If you have some comments to include for the report we can incorporate them.
